ABSTRACT

In 1976 the State Library of Ohio compiled a directory of Ohio libraries including statistical data for the preceding year. Listed are: (1) area library service organizations, (2) public libraries by county, (3) libraries in post secondary educational institutions, (4) school library media centers, (5) special libraries and institution libraries, (6) state library advisory groups, (7) association members, (8) multicounty library cooperative projects, and (9) a summary of library statistics. Libraries are listed alphabetically according to city, with address, telephone number, and names of assistant librarians, department heads and coordinators. (AP)

INTRODUCTION

The *OHIO DIRECTORY OF LIBRARIES* is compiled chiefly from information supplied by public, academic, elementary and secondary school, special, and institution libraries in Ohio through questionnaires sent by The State Library of Ohio.

Arrangement of information is generally self-explanatory; footnotes have been used as needed. A dot leader (. . .) or an N/R in a data column indicates a non-response. This Directory includes expanded information on interlibrary cooperatives and consortia. For the first time Ohio College Library Center (OCLC) location symbols are included for those libraries which are OCLC members.

Public library directory listings are based on information from the public library annual report sent by the State Library to the 249 public libraries on December 26, 1975. All 249 responded. The eight-page form, which collected information on personnel, services, resources and expenditures for calendar year 1975, was changed slightly from that which was developed in 1974 as part of State Library cooperation with the National Center for Education Statistics (NCES) in the Library General Information Survey (LIBGIS).

Libraries are listed by the name of the city in which the main library is located. Branch libraries open fifteen hours or more per week are listed under the main library. Names and titles of assistant librarians, coordinators, and department heads with system wide responsibilities are included for those libraries which have a staff of 35 or more persons. Questionnaires were also sent December 26, 1975 to the 88 county auditors' offices to collect data on the distribution of intangibles tax funds. The information from these questionnaires was compared with the reports received from the public libraries.

Area Library Service Organization (ALSO) statistics were taken from the annual report submitted by the ALSO and from the public library report forms filed by the twelve libraries which are members of the ALSO. These data are for the calendar year 1975.

In continued cooperation with NCES the State Library participated in phase II of LIBGIS I to survey college and university libraries. LIBGIS questionnaires were sent to 127 post secondary educational institution libraries by the State Library, August 1, 1975. Of these, 115 responded. Report forms were pre-edited at the State Library and forwarded to Washington from September 25 through October 3, 1975. These data gathered in the report forms were used for the post secondary educational institutions statistics and directory section.

School library media center directory information was updated April 21, 1976. This includes name, title, address, and telephone numbers of district-wide directors, supervisors, or coordinators of library media centers, as supplied by the Supervisor of Libraries, Department of Elementary and Secondary Education. Statistics (for school year 1974-75) on school library media centers were collected by the Ohio State Department of Education's Principals' Annual Opening Report which was sent to schools in September, 1975. These statistics were compiled by the Department of Education's Division of Computer Services and Statistical Reports and forwarded to the State Data Center May 5, 1976 for print-out.

Special library directory and statistical information were collected by questionnaires sent October 20, 1975, to the 305 special libraries which were listed in the 1974-1975 *AMERICAN LIBRARY DIRECTORY* (Bowker, 1974). The questionnaire requests information concerning the personnel, collection, and fiscal data for the most recently completed fiscal year. Responses were received from 144 libraries.

Institution library directory and statistical information were collected on questionnaires sent October 20, 1975 to 44 state supported institution libraries in Ohio. All 44 responded. The form requested information concerning personnel, collection, budget, and expenditures for the fiscal year ending June 30, 1975.

Data handling was done both at The State Library and at the State Data Center. Directory listings (and statistics for special libraries and institution libraries) were edited and typed on magnetic tape at the State Library. This magnetic tape was used for type setting. Academic and public library statistical forms were edited at the State Library and then sent to the State Data Center. Printouts were checked for accuracy at the State Library and preliminary printouts of academic and public library data were sent to libraries for verification before printing.

These statistics are also used to compile *RANKINGS OF OHIO PUBLIC AND ACADEMIC LIBRARY STATISTICS*, which is available from The State Library at $3.25 per copy.

Information in this Directory was checked, and changes were made up through May 28, 1976. Notes of omissions and errors are invited. Thanks are expressed to the librarians, clerk-treasurers, auditors, school superintendents, and other officials who have supplied data for this Directory.

Organization and Tax Support of Public Libraries in Ohio

Organization

There are six types of public libraries organized under Ohio law. These are association, county district, county, municipal, school district, and township libraries. Since 1947 the only type of library that can be created under Ohio law is the county district library. However, in certain circumstances, municipalities with populations of 25,000 or more may also organize libraries.

Any public library or association library giving public library service may secure support from the "classified property tax" or, as it is more commonly called, the county or local situs intangibles tax fund, provided it is willing to give service to residents of the county.

Before 1931 libraries were supported by real estate tax levies or by gifts and the income from endowments. Libraries were established by, and organized as, parts of political subdivisions (city, school district, township, county, etc.) willing to support them. Now all types of libraries receive their primary support from the county intangibles tax fund; and today the major distinctions between the several types of libraries lie in the size and method of appointment of the library board, the taxing authority, and the library district.

The board of an **association library** is appointed according to the rules of the individual library association as set forth when it received its State charter. (Sec. 1713.28 R.C.) There are 17 association libraries in Ohio receiving intangibles tax support.

The **county library** board has six members, appointed by the judge of the court of common pleas. (Sec. 3375.06 R.C.) There are 3 county libraries in Ohio.

The **county district library** board has a membership of seven: three appointed by the common pleas judge, or judges, and four by the commissioners of the county. (Sec. 3375.22 R.C.) There are 44 county district libraries in Ohio.

The **municipal library** has a board of six members, appointed by the mayor. (Sec. 3375.12 R.C.) There are 20 municipal libraries in Ohio.

The **school district public library** has a board of seven members appointed by the local board of education. (Sec. 3375.15 R.C.) There are 161 school district public libraries in Ohio.

The **township library** is governed by a board of three members, appointed by the township trustees. (Sec. 3375.10 R.C.) The township trustees confer upon this board such authority as they deem necessary. There are 4 township libraries in Ohio.

In addition to the county and county district libraries, certain libraries in Ohio have been designated by the State Library Board as "county extension center libraries." (Sec. 3375.05 R.C.) These are libraries which meet certain standards established by the State Library Board and which have formally resolved to provide for extension of their services to residents who live in their county but outside their regular service area. County extension libraries are, under certain conditions, eligible to receive state aid and other services of The State Library of Ohio to assist in extending their services to county residents.

Libraries may form an **Area Library Service Organization** which is governed by a board of trustees of at least seven and no more than fifteen members, selected from among the members of the boards of trustees of the participating public libraries (Sec. 3375.70 R.C.). There is one Area Library Service Organization in Ohio.

Tax Support

Public libraries in Ohio are principally supported by a tax levied on intangible personal property. Designated in law as the "classified property tax," and commonly referred to as the intangibles tax. This is a county tax levied on intangible personal property such as investments and deposits. An example of such personal property is the dividend paid on stocks.

Intangible personal property is taxed in two different ways.

One tax (Sec. 5707.03 R.C.) is collected by the State and is returned to the county of origin for the use of local governments. It is identified as the "state situs" intangibles tax. Libraries may not receive any funds from this source. The table on page 76 shows receipts for this tax.

The other tax (Sec. 5707.04 R.C.) is collected by the county and is the tax from which libraries secure their support. This is identified as the "local situs" intangibles tax. It is levied on intangible property listed on the classified tax list in the county auditor's office and the duplicate in the county treasurer's office.

Allocation of the county or local situs intangibles tax fund is made by the county budget commission, composed of the county auditor, the county treasurer and the prosecuting attorney.

The county budget commission estimates the tax collection for the coming year, allocates to the libraries on the basis of their need as presented in their budgets. Funds not allocated to the libraries are returned to the general operating fund of the political subdivisions from which they were collected in direct proportion to their collection.

Public libraries are eligible to participate in funds available under the State and Local Fiscal Assistance Act of 1972 ("revenue sharing funds" paid under Public Law 92-512) inasmuch as libraries are specifically named as a priority expenditure under this act. Since revenue sharing funds are paid by the U. S. Treasury directly to county, municipal, and township governments, library boards must apply for such funds directly to the appropriate local government bodies rather than to the County Budget Commission.

Details on taxes, library budget procedures, and related matters appear in Sections 5 - 8 in "An Introduction to the Ohio Laws Affecting Libraries" by Joseph F. Shubert, listed below. For an overview of Ohio taxation, including the state and local situs intangibles tax, consult the report of the Ohio Department of Taxation.

(1) Figure used is total available for library distribution after state and local fees are paid.

(2) Includes any tax levied on real property specifically for current operation or appropriated for that purpose, as well as intangible taxes.

(3) In computing the percentages of intangible taxes distributed to libraries, the figures under "Intangibles Tax Distribution to Libraries" are used. All percentages are rounded to the nearest full percent.

(4) In computing the per capita intangible tax income of libraries the figures under Intangibles Tax Distribution to Libraries are divided by the county population.

*There is an area of inter-relationship between these two taxes. In the case of bank deposits, one class of intangible property, if the individual declares the tax and pays it, the money goes into the county intangible fund and libraries along with other subdivisions may share in it. However, if the bank declares the tax and pays it, which is the usual procedure, the money is collected by the state, goes into the local government fund, and is not available to libraries.

1. This includes all public libraries which participate in the program and in local cost sharing.
2. This includes participating libraries other than public libraries regardless of the specific designation of membership (associate, contributing, full, etc.)

a. Harrison County appears twice: Bowerston is a member of MOLO; Cadiz is a member of SOLO. It is counted only once in the statewide total.

b. These cooperatives contract with a resource library which is not a member of the multicounty cooperative.

c. In addition, Ohio Valley Area Libraries (OVAL), the Area Library Service Organization serves 11 participating counties; of the 13 public libraries in these counties, 12 are members of OVAL. OVAL has 2 associate member libraries.
